

Dear Principal,

Further to the e-mail below and the publication of the Guide to Accredited Grades for Leaving Certificate 2021 for Out-of-School Subjects, and Out-of-School Learners, a short animated guide for out-of-school learners and for those taking subjects entirely out-of-school is now available here.

In addition, an Initial Information Form for out-of-school learners and for those studying subjects entirely out-of-school has been published. In order to access Accredited Grades in Leaving Certificate 2021 students studying subjects out-of-school and out-of-school learners are required to complete this form in hard copy, or electronically, and return it to the relevant principal/coordinator no later than Thursday 15 April. The form needs to be retained by the school. The form is available to download here.

A short video guide has also been developed for students taking the oral examinations and is available here.

You are asked to bring the above information to the attention of your Leaving Certificate students.

The most current information on all matters relating to Leaving Certificate examinations and the Accredited Grades process will be available on an ongoing basis on www.gov.ie/LeavingCertificate.

Your sincerely,

Curriculum and Assessment Policy Unit

Department of Education
